### **Riverside County Office On Aging Senior Lunch Updates**

In response to the precautionary order to limit group interactions to 10, below is a quick update regarding changes to the Congregate Meal program funded by OOA. We will also update our web for location-specific information.

As of Monday 03/16, group meal service has been suspended in place of the "pick-up and go" options below. Please note that each center will implement differently based on the resources they have available. It is best for customers to call their respective Centers or our office at 800-510-2020.

- 1) Limited Pick-up Schedule – Meal bags providing several days of meals, scheduled 2 to 3 times per week to limit unnecessary exposure
- 2) Frozen Meals – agencies with the capability to provide frozen meals will convert hot meals to frozen meals to limit meal pick-ups
- 3) Emergency Shelf-Stable (MRE) Meals – if available, these may also be provided to supplement other meals and to support disaster preparedness

Current home delivery clients will continue with no interruption. At this time, we are encouraging the pick-up option; as most of our volunteers for delivery are seniors who have now opted to self-quarantine. **We are limiting NEW home delivery slots to truly emergency situations such as hospital discharges or alone and immobile home-bound individuals.**

#### **Plan for seniors at risk who are not able to secure supplies due to shortages:**

OOA is in the process of planning a "courtesy shopping" program which will allow us to purchase and box essential personal items for seniors (water, bread, adult wipes and diapers, etc.). We are working this out with our community stores and providers to see if we can have priority to secure the needed items. I will provide an update as soon we have something tangible.
